deadline: monday june 30, 6pm est

assignee: ebad khan

preface: we're creating mockups for the different tiers of the companion connect app to clearly communicate the user experience and key features for each level of support.

note: a minimum of two mockups are required per tier (e.g., two for companion+, two for support+, etc.)

sitereference:https://www.figma.com/design/mOr1mpX8zkgbwaK5oMLhKl/Revert-Reach?node-id=0-1&p=f&t=Z49kkTFwp69OCMho-0

branding:https://drive.google.com/drive/folders/1of7y4aiqHdXysnwTV7OJDTNegBB4DQuK?usp=share_lnk

format: iphone-jpeg

Companion Connect

support+
weekly group engagement and peer support built on lantern's values.

mockup types:

mobile chatroom view:
shows "detox circle" open discussion group
messages with prompts like: "reflect on this week's lantern read."

weekly session schedule view:
calendar or list ui with live zoom icons / join buttons

spiritual journal tracker:
horizontal or vertical progress dots (e.g., 8-week timeline)
minimal ui with a sample journal entry ("what did you release this week?")

purpose: make it feel community-based, consistent, non-overwhelming.

companion+
deep 1:1 companionship, personal growth, spiritual alignment.

mockup types:

dedicated companion chat view:
clearly shows it's a personal, secure 24/7 chat (e.g., "ask your companion" with voice note support)

spiritual goal tracker ui:
cards with goals like: "pray on time," "understand surat al-fatiha"
option to reflect, mark complete, or journal

session summary page:
"lantern-based reflection" recap + next steps
gentle prompts like: "your companion noticed you've been feeling distant…"

purpose: highlight intimacy, spiritual alignment, and confidentiality.

mentorship+
clinical care with licensed therapists, for trauma-informed healing.

mockup types:

therapist profile card:
picture, name, credentials, specialities (e.g., "anxiety, self-trust, reversion trauma")
"book session" button with time slot previews

tailored plan dashboard:
step-by-step tracker: initial consult → personalized goals → milestone review

hipaa-compliant session ui:
minimal, secure video call layout or private session room (no chat bubbles, calm color blocking)

purpose: instill professionalism, trust, and emotional safety.

Minara

your islamic ai companion — built for every muslim at every stage, from basics to depth.

purpose:
to support muslims across their spiritual journeys with tailored guidance via specialized modes powered by trusted classical sources and ai technology.

mockup guidelines:
two static mockups total for minara that highlight its core features or user interface. no need for multiple mockups per mode—just two clear, static visuals to showcase the app's experience.

scholarx

● deep academic islamic studies assistant with precise fiqh, tafsir, hadith references and multi-madhhab insights.

debatex

● structured debate assistant offering dual perspectives, debate prep tools, and da'wah rebuttals.

revertx

● compassionate, practical guidance for new muslims with dua flashcards, habit tracking, and friendly q&a.

Minara

Your islamic ai companion – from basics to depth, built for every muslim at every stage.

Explore Minara

Companion Connect

Support at every stage — tiered, human-centered care through cohorts, companions, and counseling.
